## Summary Judgment Process Confirmed: Man. CA

In [Perth Services Ltd. v. Quinton](#), 2009 MBCA 81 the Court of Appeal upheld the decision in [Towers Ltd. v. Quinton's Cleaners Ltd.](#), 2009 MBQB 34 granting Perth Services summary judgment of its cross and third-party claims against Quinton's for full indemnification concerning a contamination claim it had settled. Quinton's, who had declined to defend the action settled by Perth Services, argued that the case could not be determined on summary judgment since there were genuine issues for trial. The Court of Appeal found no basis to intervene, holding the judge's reasoning to be a "good illustration of the process that should be undertaken by a judge in a complex summary judgment motion. The reasons reflect an appreciation of the applicable law, the rules of evidence, the facts and the balancing of factors that is implicit in the exercise of discretion." (para.46)

## More on Spoliation

In [Kulynych v. Manitoba Lotteries](#), 2009 MBQB 187 the court rejected the plaintiff's argument for an adverse inference of spoliation because there was no proof the video surveillance tapes supporting the defendant's evidence had been intentionally destroyed.

A wide range of remedies is available in spoliation cases, as pointed out in an article in the Summer 2009 [Fillmore Riley Report](#): *Spoliation: The Consequences of Destroying Evidence*. The author urges organizations to develop record management policies, noting that it is much easier to rebut a presumption of intentional destruction of evidence if a reasonable policy

mandating destruction was followed.

## Facebook Profile Relevant: ON. S.C.

Following [Leduc v. Roman](#), 2009 CanLII 6838 (discussed in [Update No. 30](#)), the Ontario Superior Court has again ordered production and preservation of Facebook documents, this time in a medical and rehabilitation benefits case: [Wice v. Dominion of Canada General Insurance Company](#), 2009 CanLII 36310 (ON S.C.).

## Proposed *Limitation of Actions Act* Changes

A [Draft Report for Consultation on The Limitation of Actions Act](#) and an [executive summary](#) of the report are now available on the Manitoba [Law Reform Commission website](#). Proposed changes include: abolition of the various categories of claims set out in the current Act, and their replacement with a single, basic two year limitation which would begin running when the existence of a claim was discovered or discoverable; and a 15 year ultimate limitation, running from the date on which the act or omission on which the claim is based occurred. After this, no claim could be brought, regardless of discoverability. The Commission seeks comments on all aspects of the consultation report, and, in particular, in relation to the abolition of special limitations provisions applicable to real property claims.

## Small Claims Court Fee Change

[The Law Fees and Probate Charge Regulation, amendment \(M.R. 97/2009\)](#) has changed the calculation of filing fees for Small Claims Court actions under [Manitoba Regulation 322/87R](#). Effective July 1, 2009 the fee for claims up to and including \$5000 is \$50 and the fee for claims over \$5000 is \$75.

## Litigation Publications

The interactive version of [The Sedona Canada Principles Addressing Electronic Discovery](#) was posted June 23, 2009 on the LexUM [E-discovery Canada](#) website.

In [Honda v. Keys: Back to Baxendale for the Damages Formerly Known as Wallace](#), author Ryan Edmonds explores the impact of the Supreme Court of Canada's surprising decision last summer reformulating the rules on bad-faith damages in employment contract disputes.
